### Boys:

Every boy is a miniature business man. If he manages his little business affairs with credit to himself, he will be a good manager of big affairs later in life. The best way in the world for a boy to become a good manager is to have a savings account, think twice before spending and keep the account growing. This bank wants to be a "partner" in the affairs of every sturdy, sensible boy in Lexington by helping him to save.

### Some Alligators

Mr. D. J. Furtick, of Swansa, route 1, living near Jefcoat's bridge, recently caught an alligator measuring 9 feet and 3 inches in the North Edisto river by the means of a hook baited with a moccasin. It is needless to say that the gator was not caught with a hook known as the perch or cat fish size, but it required a special size hook made at a blacksmith shop. Mr. Furtick also captured alive a young alligator about 2 feet in length and had an exciting time with the mother gator who heard the squeals of her young. Mr. Furtick says he got into a brot 1 of alligators, the two old and many young ones.

### Sunday School Picnic.

The annual joint Sunday school picnic of the several denominations of our town was held last Saturday at Mr. Eli Corley's spring. There was a large number of people present, representing every denomination, all of whom mingled in brotherly affection and enjoyed the elegant picnic dinner. The good people brought well filled baskets and refreshments were freely served. The only incident that marred the pleasure of the occasion was a heavy rain, hardly giving those present time to eat dinner, and dispersed the crowd earlier than usual. We hope all will enjoy peace, happiness and prosperity over another year and live to attend the next annual joint Sunday school picnic at Eli Corley's spring.

### Pond Branch Items.

The crops are looking fine since the rain. The health of the community is very good at present.

### Painfully Injured.

Little Ross, son of Auditor Dent, had the misfortune to break his arm a few days ago. He together with other children were out picking blackberries and when some one came along with a number of dogs he became frightened and in running fell, breaking the same arm he fractured some time ago. Fortunately however the limb was not broken at the same place. He was promptly given medical assistance, the broken arm being splinted, and he is getting along nicely now.

### First Load of Peaches

The first load of Lexington peaches was carried to Columbia last Thursday by Mr. George Sease, a progressive planter and fruit grower of Gilbert route 2. Mr. Sease says his peach crop is very short this year as he will only have 25 bushels in all and last year at each load carried 25 bushels at a time.

## ABSOLUTELY PAINLESS DENTISTRY.

The claim of Painless Dentistry from many Dentists would sound absurd, but when promised by Dr. Toole confidence is at once bestowed. Thousands of people, many of whom are in Lexington County, would gladly testify to my painless methods. Possibly 13 or 14 years ago when I did my first work in Lexington County all this while I have spent much time and study here to give the people the best that could be had with all modern methods.

### NO PAIN.

More work and better work for the money and now prepared to make the announcement: If its Dentistry matters, not how small or large, here's the place to get what you are hunting for. For the past couple of years many reports have come to me like this: Dr. Toole does good work but his prices are so high, so I have cut these prices to where the poor as well as the rich may be benefited so now is your chance while they last.

### CAUTION

Don't be bamboozed, but be sure you are in the right place as this is the original, but one Dr. Toole.

Our whalebone plate fits perfectly, never drops or breaks. You could bite corn off the cob. We want your name on our books while these prices are on, if you fail you are the loser. Extraction free. Examination free.
